

(i) Executive Summary

Isolendalo Environmental Consulting, established as Close Cooperation firm is a company that practices the principles of sustainable and holistic environmental management. The company offers the services of Environmental Impact Assessments, the compilation and implementation of Environmental Management Programmes, the compilation of Social Facilitation plans (for EIA Purposes), Public Participation, and Environmental Awareness Training, Water Use Licence applications, as well as the compilation of the Environmental Documentation for any feasibility studies.

Founded in 2006 February, the Firm has already conducted various projects ranging from road upgrade to waste disposal site including waste water projects, and fuel service stations. Initially, the firm was based in the Eastern Cape until moved (2009) to Margate in KwaZulu-Natal. Through its dynamic capabilities, the firm has assisted (and continue to offer expert advise) to different authorities on various projects within the Eastern Cape Province and KZN.

With its Head Office based in Margate (Uvongo), the Firm has steadfastly earned greatest respect to government departments and well established known developers within all over KwaZulu-Natal.

Isolendalo Environmental Consulting is basically Black owned offering top quality services by professionals on Environmental Science, Social Studies and Natural Science Specialist etc.

It consists of 5 dedicated personnel including 1 administration personnel, of which 4 of the personnel are technicians/ environmental technical people.
